

Combi-Ride
THE UK'S PREMIER SURFACE AGENT

Premium All Weather Rubber

Combi-Ride Premium All Weather Rubber is a unique Anti-Frost Rubber Coating that provides protection against frozen surfaces, provides a layer of trapped moisture and assists in the reduction of dust.

Our Premium Grade Rubber is a non tyre based product and as only used in a sporting and protected environment, is clean, free of wire and other contaminants.

Specially designed to absorb high impact pressure, our Premium Grade Rubber offers added cushioning and protection against the impact of stress or strain on horses' backs and legs, the angular cut of the rubber also ensures a non slip finish.

The Equestrian market has been flooded over the years with poor quality All Weather Rubber Protection, many times we have seen arenas with dirty and dusty rubber toppings that are riddled with dangerous remnants of wire left over from the recycling process.

Combi-Ride can now provide you with this high quality product that quite frankly is more than just rubber!

Available bagged, loose, delivered or for collection, our Premium All Weather Rubber provides more than just protection against the elements!
